APPLICATION RATES

Product can be used across multiple crop types as the major forms of foliar and fertigated nitrogen. Multiple applications can be made until desired rates are achieved. It is recommended that crops' yearly nutrient requirements be based on in-crop and post harvest soil, sap and leaf test results. Shake or agitate well before use. For uniform coverage dilute in water. Always obtain recommendations from your agronomist or consultant.

PRODUCT INFORMATION PRODUCT STORAGE

Keep material in a cool, dry, well-ventilated area, away from direct sunlight, between 10 to 30°C. Store product in suitable containers made from material such as stainless steel, high density polyethylene and fibreglass. Fluid fertilizers can be corrosive to material such as brass, copper, zinc or alloys of these metals. Clean equipment after use thoroughly with clean fresh water. It is recommended that this product is used within 12 months from dispatch date.
